In the spirit of reconciliation, we, as members of the Terrace Family, acknowledge the Aboriginal and Torres Strait Islander peoples as the First Peoples of our Nation. We acknowledge, respect and give gratitude to the Traditional Owners of the Countries on which our campuses are located.

We pay our respects to Ancestors, Elders, and leaders of the future as well as to Aboriginal and Torres Strait Islander members of our Terrace Family. We value the knowledge of our Aboriginal and Torres Strait Islander peoples, and recognise and honour their stories, cultures, and achievements as we walk together for mutual liberation and a truth-telling history for all Australians.

Inspired by the Touchstones, we are called to be people of knowledge, humility and wisdom who walk in solidarity with the First Peoples of our Nation for reconciliation, justice, equity and healing.

FROM THE PRINCIPAL

Dear members of the Terrace Family,

Welcome to 2024 and what is shaping up to be another great year for Terrace. This edition of *The Terracian* is again filled with a myriad of articles and photos that highlight the diversity, richness and history that abounds within the Terrace Family.

Before we begin our journey and look forward to what 2024 will bring us, it is also worth acknowledging some of the successes that occurred at the end of 2023. Most notably, this edition highlights the academic successes of our Year 12, 2023 cohort and more extensively, the successes of Semester 2 last year. Our Scholars' Assembly in February was a significant event and allowed the Terrace Family to congratulate many young men on their academic success in 2023. Similarly, the Academic Medal Assembly in Week 4 saw almost 29% of Terrace students receive an Academic Award for their results in Semester 2, 2023. Congratulations to all award recipients.

The start of the 2024 school year has been very positive, albeit a little warm. The stories and photos included in this edition highlighting our Day 1 rituals and Opening Mass reinforce just how special this time of the year is, not only for our newest Terracians and their families but for the wider Terrace Family.

In what is always a busy term we have enjoyed a range of GTOBA events and activities, our Inter-House Swimming Carnival, Ash Wednesday liturgy, Book Week activities, the launch of our Lenten Appeal, International Women's Day celebrations, our annual Terrace Jazz Night and the 2024 GPS Head of the River.

As always, *The Terracian* allows us to acknowledge and congratulate members of the Terrace Family on their many achievements. We will also remember and acknowledge those in the Terrace Family who are no longer with us, with this edition including a special tribute to a great Terracian, Brother Brian Grenier.

Throughout our 149 years, Terrace has always been a community based on people. This *Terracian* profiles a range of Terrace Family members including volunteers, staff and students as they engage in the many aspects that make up Terrace life in 2024.

Terrace has certainly grown over the years. From humble beginnings in the Pugin Chapel in 1875, Terrace now boasts 1800 students, over 250 staff and over 1400 families. Our family is certainly growing, as is our home. The regular spotlights on the archives featured in *The Terracian* will be of increased interest as we edge closer to our 150 year celebrations in 2025.

I take this opportunity to wish all members of the Terrace Family a successful 2024 and look forward to the exciting stories that will be featured in the various editions of *The Terracian* during the year.

God Bless.

Dr Michael Carroll
College Principal

FIRST DAY OF SCHOOL

The first day of Term 1, 2024 was certainly one to remember. The sun blazed down on a sea of Red and Black as amid nervous smiles, the Terrace Family welcomed our newest students in the traditional Welcome Tunnel. We look forward to seeing our students *Carry the Crest* in Knowledge, Humility and Wisdom throughout 2024.

OPENING MASS AND INDUCTION

On Thursday 25 January, the Seniors of 2024 were inducted as College leaders at the Senior Induction held in the Campbell Centre. Surrounded by their family, friends and teachers, the House Captains proudly donned their Captain's pins, and the remaining Seniors their Senior badges, reminders of the responsibility and privilege they now carried.

The Seniors of 2024 have chosen the theme of *Carry the Crest*. As spoken by College Captain, Tom White, during his speech *Carrying the Crest* is a call for the Terrace Family to uphold the three values of Knowledge, Humility and Wisdom that are embodied on the Terrace crest.

The College's Opening Mass was also held on the same day, allowing the wider Terrace Family to join in prayers of thanks and hope for the year ahead.

SCHOLARS' ASSEMBLY

By Mrs Mary Brown

On Wednesday 7 February, the College gathered to recognise the outstanding academic achievements of the Year 12, 2023 cohort.

The 2023 ATAR results were a testament to the hard work and dedication of our 2023 Seniors. This cohort achieved the College's highest-ever median ATAR of 93.55, a remarkable accomplishment. Further distinctions included:

- 26 students awarded the QCAA Certificate of Academic Commendation for attaining A grades in all General subjects.
- 14 students achieving perfect subject scores of 100%.
- 54 students attaining 100% in an external exam.

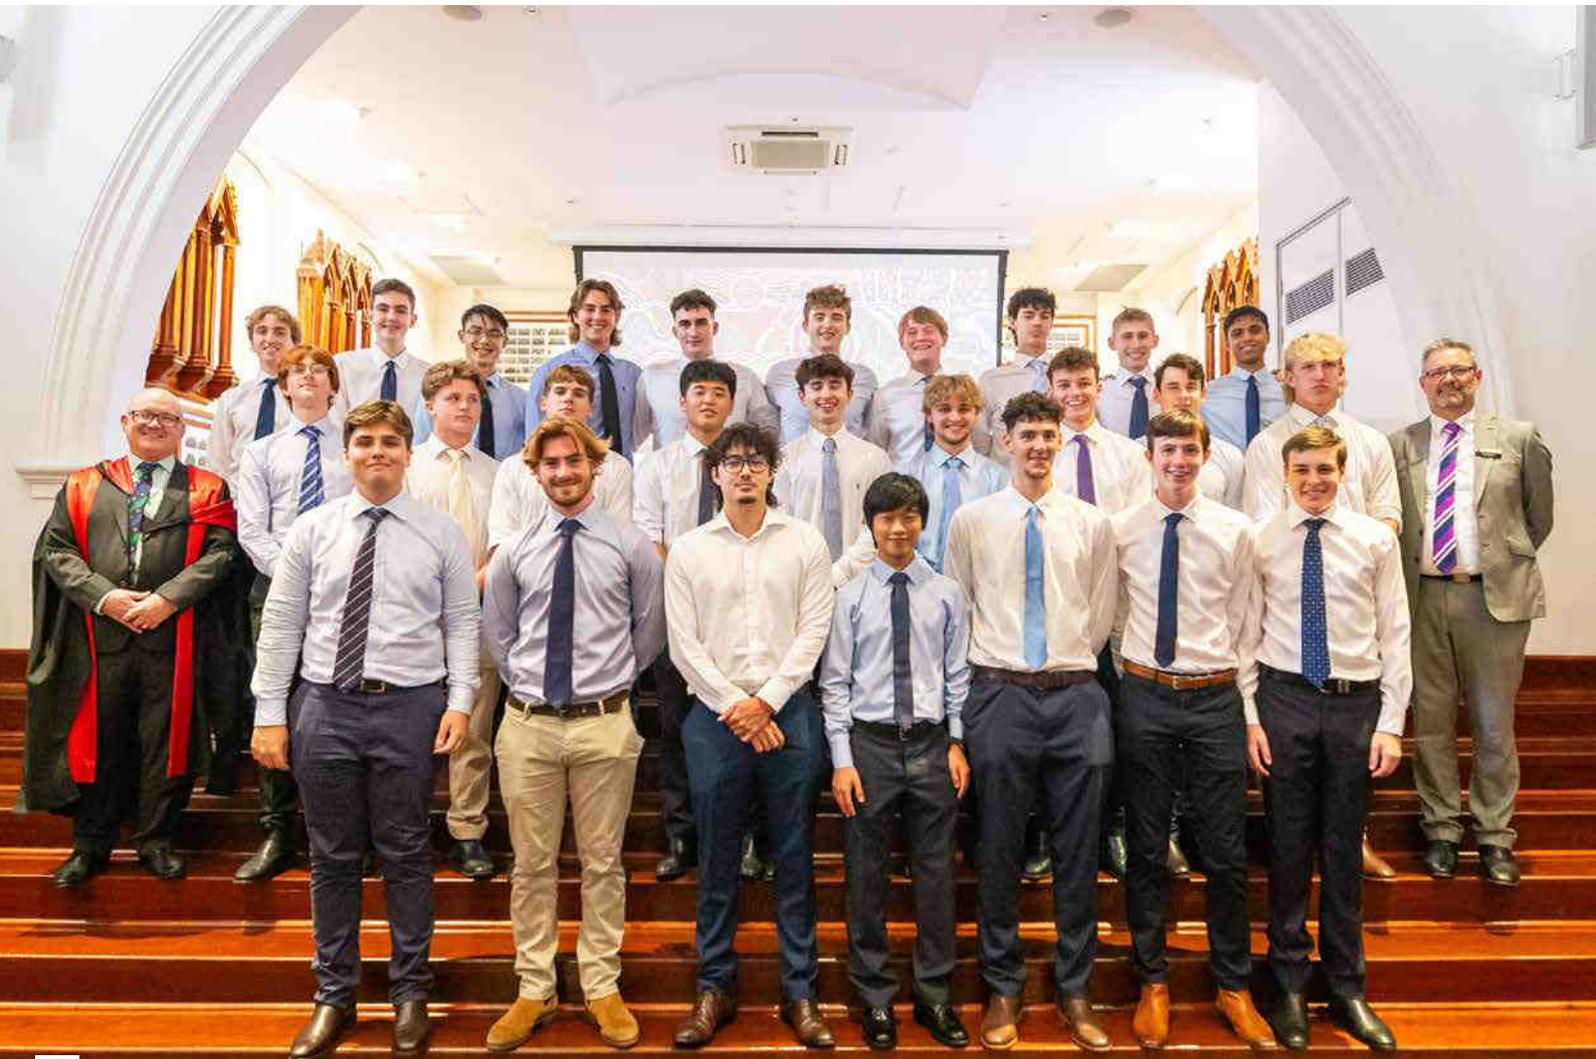

Benjamin McGraw was awarded the Laurence Healy Memorial Prize, the Blessed Edmund Rice Award for Dux of the College. Mr McGraw

achieved an ATAR of 99.90, coupled with Equal First rankings in Mathematical Methods, Physics, and Specialist Mathematics.

Sharing his experience, Mr McGraw offered valuable advice to current students: *"You will be rewarded for the effort you put in so trust the process. You're all in it together, all running side by side, so use each other, use your teachers, and maximise your opportunities."*

In addition, 32 Terracians received the Scholars' Award, recognising their exceptional ATAR scores of 98.55 or above.

The Scholars' Assembly is a reminder of the College's commitment to academic excellence and a celebration of the remarkable potential of our students.

SPECIAL AWARDS

Laurence Healy Memorial Prize,
the Blessed Edmund Rice
Award for Dux of the College:

Benjamin McGraw

The Honourable Sir Joseph
Sheehy KBE Memorial

ACADEMIC MEDAL ASSEMBLY

The Academic Medal Assembly recognises Semester 2, 2023, students who achieved a Gold, Silver, or Bronze Academic Medal. To receive a Gold medal, a student must achieve an A level in all their subjects; for a Silver medal, a student must achieve an A level in all but one of their subjects; and for a Bronze, an A level in all but two subjects.

On Monday 12 February 2024, 442 students, representing 29% of all Terrace students, were awarded an academic medal. This is an outstanding result, and we congratulate these young men and their teachers and parents for their support in Semester 2, 2023.

BOOK WEEK

‘The week culminated in a fierce trivia battle, testing students’ knowledge of beloved books and authors.’

William Ma taking part in the Lego competition

Mrs Mary Brown

Terrace Library Transforms for Magical Book Week Celebration

Years 5 and 6 students were swept away into a world of wonder during the *Reading is Magic* Book Week from 19 – 23 February. During lunchtimes, the library buzzed with spellbinding activities, from author visits, escape rooms, magic shows, creative challenges, and even a sword display!

Acting Head of Faculty: Library Services, Ms Elizabeth Taylor said that the Junior Book Week aimed to encourage excitement and enthusiasm for reading.

“One of the highlights of the week was our virtual visit from renowned Australian children’s author Nat Amooore. She shared some great ideas and advice about writing narratives, that were put to good use in the classroom when the boys began their creative writing unit,” said Ms Taylor.

Students’ problem-solving skills were tested in a fantasy-themed escape room challenge. The boys raced against the clock, deciphering clues to unlock the secrets and “escape.”

On Tuesday, the library transformed into a stage for budding magicians as students delighted in learning magic tricks and revealing the secrets behind the illusions, as they taught each other secrets from magicians.

Later in the week, creativity soared with a LEGO challenge where dragons, mythical beasts, and other fantastical creatures took shape. Art took a magical turn with scratch art designs, while a fascinating sword collection, courtesy of Mr Hornsby ignited a thirst for the stories behind them - featuring blades from *Lord of the Rings*, *Game of Thrones*, *The Witcher* and *Buffy the Vampire Slayer*.

The week culminated in a fierce trivia battle, testing students’ knowledge of beloved books and authors.

“Different from previous years, this year we held Book Week focused purely on our junior students. We were so impressed with the level of participation and enthusiasm from the boys and hope to make Junior Book Week bigger and better next year,” Ms Taylor said.

“Thank you to the whole Terrace library team for helping bring this magical week together.”

With hopefully a love of reading awakened, Terrace students are sure to be reaching for their next book.

ASH WEDNESDAY

‘This Lent we ask our Gentlemen of Terrace if they will carry the message of moral courage, service, love and compassion.’

By Miss Nikita Bedwell

On Wednesday 14 February, students gathered in House groups to celebrate Ash Wednesday and signify the commencement of the Lenten season.

Lent is a season which compels us to a mindset of deep listening, contemplation, reflection, waiting and rebirth. The Aboriginal People of the Daly River call this mindset ‘Dadirri’ which means ‘inner deep listening or quiet still awareness’. Dadirri is about connecting and listening to the land, to the Creator and to the deep inner wellspring within ourselves. This year for Ash Wednesday, we brought together our Catholic Faith with the ancient spiritual wisdoms of our First Nations people by commencing our Liturgies with a guided Dadirri video by Dr Miriam-Rose Ungunmerr Baumann.

At the start of the school year, the College Captain and Senior Leaders launched the 2024 motto of *Carry The Crest*. This motto inspired our Lenten theme for the forty days of *Carry The Message*. Our House Captains led their House group in an Ash Wednesday Liturgy focused upon Jesus’ message of give alms, fast and pray.

Jesus calls us to **give alms**, reminding us that we do not close ourselves off from the isolated, the marginalised or the suffering, but rather reach out with open hearts to those in need. This Lent we ask our Gentlemen of Terrace if they will carry the message of moral courage, service, love and compassion.

Jesus calls us to **fasting**, reminding us to simplify our lives and grow through challenge and making sacrifice. This Lent we ask our Gentlemen of Terrace if they will carry the message of simplicity, discipline, responsibility, courage and vulnerability.

Jesus calls us to **prayer**, reminding us to look inward with a spirit of transformation and renewal. This Lent we ask our Gentlemen of Terrace if will they carry the message of prayer, deep listening, reflection, growth and gratitude.

Over the forty days of Lent, students were encouraged to consider how they would carry Jesus’ message through their words and actions as they support their House Friendship Group through the annual Lenten Appeal.

To support their peers on their Lenten journey, the College Captain and Vice Captains wrote their own *Carry the Crest* prayer to encapsulate the spiritual meaning of this year’s motto. Over the four Fridays of Lent, this prayer was said in the afternoon over the loudspeaker as a reminder to all Terracians to carry the message of Jesus as modelled to us by Blessed Edmund Rice.

Carry the Crest | A Prayer for 2024

Loving God,

As we journey through the halls of Terrace,
Help us to carry the crest responsibly, knowing with each step that we are -
Carrying the message of Jesus, as modelled to us by Edmund Rice.
Carrying the legacy of past generations, who have paved the way for us.
And above all, carrying each other in times when our brothers may fall.

Let our values guide us -

When we ask for knowledge, grant us people to learn from openly,

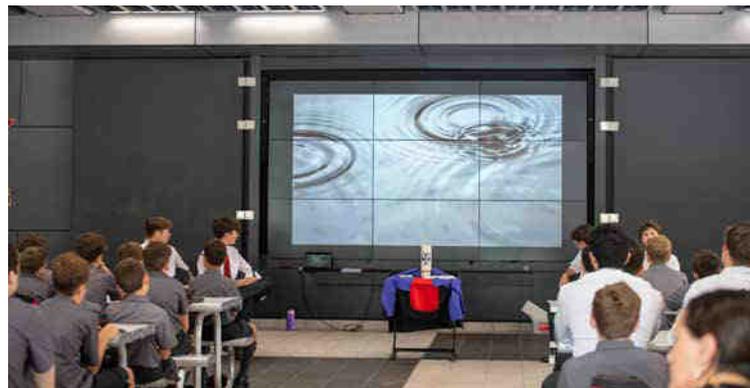

When we ask for wisdom, grant us problems to solve wisely,

When we ask for humility, grant us triumphs to earn humbly.

We ask these things through our brother Jesus.. Amen.

Live Jesus in Our Hearts.. Forever.

St Joseph.. Pray for us.

CALLING CEREMONY

On Wednesday 28 February, the Year 9 cohort gathered with their parents, caregivers, and mentors for the first significant ritual in their Waterford Journey, The Calling Ceremony. The Ceremony serves as an essential rite of passage for these Terracians, providing a clearly defined marker to begin their journey from childhood to adulthood. The Waterford Journey, a program supported by one of Australia's most recognised boys' educators, Mr Andrew Lines, was officially launched at Terrace in 2023. We hope this year's cohort embraces the powerful formation program, supporting them as they take the next significant step in their lives.

WHAT IS THE VALUE OF STANDARDISED TESTING FOR STUDENTS AT TERRACE?

By Mr Mason Hellyer

Week 8 of Term 1 saw the commencement of this year's National Assessment Program for Literacy and Numeracy (NAPLAN). In 2024, Terrace joins all schools in Australia to complete the annual NAPLAN testing program online. The Australian Curriculum, Assessment and Reporting Authority (ACARA) is the federal body that oversees the development, implementation and marking of the NAPLAN program.

The assessments allow parents to see how their child is progressing against national standards in literacy and numeracy, and over time. Along with other school assessment reports, NAPLAN supports parents in discussing their child's strengths and areas for improvement with teachers. NAPLAN results can assist teachers by providing additional information to support their professional judgement about students' levels of literacy and numeracy attainment and progress (ACARA, 2024).

The movement to a fully online exam program in Term 1 has allowed for tailored testing which means students are given questions that are better suited to their abilities and enable them to show what they know and can do. Furthermore, schools will be able to access result data earlier, thereby allowing time for meaningful interventions.

The NAPLAN testing program has always generated debate in both the educational and wider community, especially regarding the 'worth' of the testing outcomes. More specifically, the reporting of NAPLAN outcomes, both in the media and the MySchool website, does raise concerns regarding the comparison or 'ranking' of schools.

Therefore, what is the value of NAPLAN results for Terrace students? Regardless of how NAPLAN results are reported, the data is valuable to us for a number of reasons. Firstly, the most valuable aspect is the capacity to compare cohort results longitudinally. Secondly,

it provides valuable information on the strengths and weaknesses of a cohort. Utilising these two aspects, the College can identify areas for growth for a particular cohort. For example, the continued implementation of the Write that Essay writing program arose from the identification of a weakness in our writing results. This program, as part of a targeted literacy intervention, has seen the College's writing results improve. Furthermore, the capacity to track progress longitudinally allows us to continually assess the value of our interventions and adjust where required.

Individual NAPLAN results do not define a student. These results provide one set of data on student performance and progress. At Terrace, we utilise NAPLAN, school assessment, teacher feedback, pastoral data, and other standardised tests, like Year 10 Career testing, to create a rich 'picture' of student academic progress. Curriculum and Program Leaders, as well as classroom teachers, access this data at various junctures to identify, intervene or extend student learning.

Terrace's use of student data continues to evolve. The College utilises a data visualisation tool that enables staff to more easily identify key student, class and cohort outcomes that can then directly influence our practice. Excitingly, this tool will have both a student and parent access point. This will mean that students and parents will be able to access more detailed information on their results and progress at any time. My intention is for this to be available from the commencement of the 2025 school year.

The debate on the value of standardised testing will no doubt continue. However, the use of data to assist with the academic progress of students will be ever present. Importantly, it is how this data is used in a targeted and meaningful way that is the most important factor in affecting and improving student outcomes.

ACARA (2024), "NAPLAN 2024 information resources for school", Australian Curriculum and Assessment Authority, January 2024.

THE LEGEND OF THE GT CHEESEBURGER

‘Through our incredibly fortuitous, and ongoing relationship, with Stanbroke – and proudly promoting Peter Augustus Craft Butchers, in 2016 we introduced the GT Rugby Peter Augustus Cheeseburger.’

By Mrs Mary Brown

Every great sporting venue needs a canteen to keep players and spectators fuelled, and the Terrace canteen at the Tennyson Playing Fields is no exception. The parent-run canteen offers a warm welcome with Kolega Coffee and delicious food – but the real star of the show is the famous “GT Cheeseburger.” This burger has been a Tennyson fixture for years, drawing crowds not only from the Terrace Family but from other schools and curious foodies as well.

In 2015, Michael Fallon (GT 1987), the creator behind the GT Cheeseburger, decided to shake up the typical canteen fare.

“Every GPS school had the same game day menu – a steak burger with salad on a square flat bun,” he explains. “We wanted something special.”

“Through our incredibly fortuitous, and ongoing relationship, with Stanbroke – and proudly promoting Peter Augustus Craft Butchers, in 2016 we introduced the GT Rugby Peter Augustus Cheeseburger,” said Mr Fallon.

The classic combination of a 175g grain-fed Black Angus beef patty, melted cheese, fried onions, pickles, aioli, and BBQ sauce on a brioche bun was an immediate hit.

The success of the GT Cheeseburger has been nothing short of phenomenal. Mr Fallon reveals impressive figures,

“Our record stands at 1,712 GT Cheeseburgers and nearly 300kgs of hot chips sold in one day.”

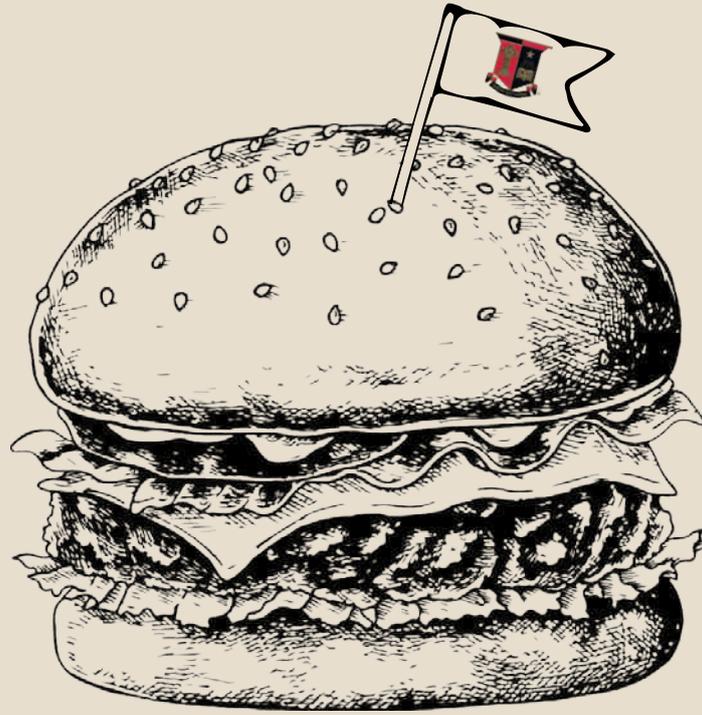

The burger’s fame has spread beyond Terrace supporters, with visitors from other GPS schools making pit stops at Tennyson on their way to or from matches just to savor the experience.

The burger even garnered attention on the Wallabies “Green & Gold” Facebook page, culminating in the declaration from a fan that it was “the Best in the GPS.”

The GT Cheeseburger’s reach is no longer limited to the rugby field. Now a proud tradition at Tennyson, this iconic dish is also served during rowing regattas, cricket, and football seasons.

Want to try it for yourself? Head down to the Tennyson Playing Fields during a Terrace game to experience the legendary GT Cheeseburger in all its glory!

PETER AUGUSTUS

GT Cheeseburger

RECIPE

INGREDIENTS

Brioche Bun

Aioli

BBQ Sauce

175gm Grain-fed Black Angus Beef Pattie

Hi-melt Cheese

Diced Onion

Pickles

OPTIONAL

Red & Black Peter Augustus greaseproof paper for serving

METHOD

On a brioche bun, add aioli and a touch of BBQ sauce. Place a 175gm grain-fed Black Angus beef pattie and cover with a slice of hi-melt cheese.

To finish, add some diced and fried onion along with a few pickles. For the full GT experience, wrap in the Red & Black Peter Augustus greaseproof paper and serve.

INTERNATIONAL WOMEN'S DAY

By the International Women's Day Committee

Count Her In: The global fight for gender equality

Clara Zetkin, a prominent figure in the Women's Office for the Social Democratic Party in Germany, spearheaded the idea of International Women's Day at the 1910 International Conference of Working Women in Copenhagen. With enthusiastic backing from representatives of 17 countries, the initiative gained momentum. The inaugural events, marked by meetings and protests, took place on 19 March 1911 across Europe. In 1913, the date of 8 March was officially established, and since then it has remained a powerful celebration of women's achievements and progress.

Australia held its inaugural International Women's Day (IWD) in Sydney in 1928. This historic event was orchestrated by the Militant Women's Movement, championing essential rights such as equal pay for equal work, advocating for an eight-hour working day for shop girls, and pushing for paid leave. Following Sydney's lead, Brisbane joined the movement with its first event in 1929. The momentum didn't stop there. Annual marches were launched in both Sydney and Melbourne by 1931, and these empowering marches continue to thrive to this day, marking a legacy of solidarity and progress.

IWD is a day to recognise women's achievements, and to highlight and address barriers which still perpetuate gender inequality, even right here in modern-day Australia. Did you know:

- ⦿ Around 2.4 billion women of working age are not afforded the same economic opportunity as men.¹
- ⦿ Nearly 1 in 3 adolescent girls from the poorest households around the world has never been to school.²
- ⦿ Only 26% of countries have a comprehensive system to track gender-budget allocations.³

Today, women continue to face barriers achieving leadership roles. The so-called glass ceiling, in many instances, is still not smashed. The powerful perspectives of women are withheld from decision-making - decisions which affect everyone. The UN's 2024 theme 'Count Her In. Accelerate Women. Invest in Progress' heralds women's equal participation in the economy; equal ability to earn; equal ability to be educated, and equal ability to be promoted.

Terrace aims to cultivate a culture of inclusivity where every individual is empowered not only to include but also to understand, teach, and learn from one another. The College emphasises the pivotal role inclusion plays in fostering equality across all spectrums, dismantling stereotypes, and recognising the inherent value in every woman's experience. It encourages everyone to open themselves up even further to the contribution that women make to our world, from all communities, ethnicities, and vocations.

'Today, women continue to face barriers achieving leadership roles. The so-called glass ceiling, in many instances, is still not smashed.'

The College held its annual International Women's Day breakfast on Friday 8 March. All staff and Senior Student Leaders were invited to attend and to listen to the 2024 guest speaker, Her Honour Judge Jennifer Rosengren. In a passionate speech, Her Honour's key messages included:

- ☉ Be kind to self and others – you do not know what a person's past or present looks like.
- ☉ Show your care and compassion through your interactions with others.
- ☉ Love yourself.
- ☉ Be empathetic.
- ☉ Show generosity. Proactively look for ways to give and 'reach back'.
- ☉ The important role of teachers and all those who work within schools – the power that teachers have to have a positive influence through everyday interactions with young people who may only know the 'ugliness' of this world.
- ☉ We are always stronger when we stand together.

Attendees at this year's breakfast rallied behind the local charity Share the Dignity. If you're able, please consider extending your support by making a donation through their website: www.sharethedignity.org.au

Every contribution helps make a meaningful difference in the lives of women they assist.

The College was proud to publish a short selection of video messages of students from across Years 5-12 thoughtfully articulating the women in their lives who have inspired them. The diversity of inspirational women highlights the value of women in our community.

Prayer for International Women's Day

God of all creation,

You fashioned us in love.
Thank you for bringing us together today in a spirit of generosity.
We ask for your wisdom and grace, to use our talents for the betterment of others.
In the spirit of those who work for justice, breathe forth your power of creation and break down the walls of hatred and discrimination.
God of hope and love,
We know too that many women and girls still face challenges in their communities to take an equal place.
We pray that change would happen, and that we will see all people living, working, and striving together, as equals, sharing the gifts, skills and wisdom you have given each of us.
Transform our hearts to celebrate the love and grace of all people.
We make this prayer, confidently trusting in your love.

Amen

TERRACE VOLUNTEERS

By Ms Zoe Morgan

As National Volunteer Week (May 20-26) approaches, it is the perfect time to shine a spotlight on the sometimes-unsung heroes of our community - the dedicated and compassionate volunteers of the Terrace Family. These individuals form the backbone of our community, contributing their time, skills, and passion to positively impact the lives of those around them.

The Tennyson canteen and BBQ scene is among the most vibrant Terrace volunteer activity hubs. With their aprons on and smiles ready, these volunteers work tirelessly to ensure everyone enjoys delicious catering when visiting Tennyson. We also see the Terrace Family donning aprons daily to support the running of our Eddie's Van. Their culinary skills and warm hospitality create an inviting atmosphere that adds an extra layer of friendship and welcome.

Our Terrace volunteers don't just stop at vital event hospitality; they extend their influence to decision-making through volunteer roles with the School's Advisory Council, Foundation Board, and various Sub-Committees. Their wisdom and commitment play a pivotal role in shaping the direction of our community, ensuring that it remains a vibrant and supportive place for all.

We also see Terrace Family volunteers welcoming guests to the hundreds of functions and events crowding the Terrace calendar. With open arms and friendly faces, they create a welcoming environment for attendees, fostering the sense of community and camaraderie synonymous with Terrace. Their efforts to create an inclusive and welcoming environment demonstrate the Terrace Family's strong values.

In times of crisis and great joy, the College's Care and Concern Committee can always be relied on to provide valuable support to the wider Terrace Family. From sourcing delicious home-cooked meals to ensuring domestic duties are taken care of for a family who has lost a loved one or welcomed a new bundle of joy into their lives, the Care and Concern logistics have been a constant source of support for those in the Terrace Family needing extra care and compassion.

'Our Terrace volunteers don't just stop at vital event hospitality; they extend their influence to decision-making through volunteer roles with the School's Advisory Council, Foundation Board, and various Sub-Committees.'

Across decades, our activities have also benefited from our volunteers' expertise and tireless support, particularly through our volunteer Support Groups. Whether mentoring, coaching, or organising, they go above and beyond to ensure all Gentlemen of Terrace experience the best of their programs.

Our volunteers continue to make a lasting impact within the TLG and Old Boys' Associations. Their dedication to preserving traditions, fostering connections, and giving back to the community is commendable. The Terrace Family owes much of its strength and continuity to the tireless efforts of these volunteers.

So, as National Volunteer Week approaches, we take a moment to express our gratitude to all of you within the Terrace Family who volunteer and selflessly dedicate your time and talents to enriching the lives of others. You are the heart and soul of our community, embodying the spirit of generosity and kindness that makes Terrace a genuinely exceptional place to be – thank you.

AROUND THE COLLEGE

In Visual Arts, Year 9 students have been working hard to hone their portraiture skills in the lead-up to submitting entries for the Young Archie 2024 competition.

Year 10 students immersed themselves in a day of practical education at The University of Queensland, participating in the Science and Engineering Challenge and achieving 2nd place.

Reidy House demonstrated solidarity and empathy at their annual Reidy Rice Day, supporting House Friendship Group, Brisbane Youth Service by raising awareness of the challenges faced by many young people who go without basic needs.

Years 5 and 6 students participated in a Reconciliation program, engaging with Aboriginal and Torres Strait Islander cultures through workshops led by Cultural Mentor Marlon Riley and parent Francis Nona. The final session, led by Barrambin Yarning Group's Nate Wines and Elisha Browning, focused on sharing personal stories and culture. Students were presented with reconciliation badges, symbolising our inclusive community and collective commitment to supporting First Nations peoples. These badges, featuring our Reconciliation Artwork symbol, represent our unity, and we encourage students to wear these as part of our uniform.

This year's GPS Swimming Championships did not disappoint. Our Juniors claimed a decisive victory with 1st place, while the Seniors achieved a 3rd place finish. Congratulations also to Captain, Ike Martinez (Year 12), who achieved a record-breaking 100m Butterfly.

Congratulations to Vincent Faulkner (Year 10) for his remarkable performance at the Track State Championships. Clocking in at a lightning-fast 11.07 seconds in the 100m, he won the gold and now heads into Nationals with the fastest time for his age group nationwide. Another impressive victory followed in the 200m in 21.76 seconds, a personal best and over half a second ahead of his peers.

Congratulations to Jack Weeden (Year 11) who was named Captain of the Queensland squad at the Australian Youth Beach Volleyball Championships, held in Coolangatta in March.

Queensland was awarded the overall champion state, retaining the coveted Andy Burden Shield.

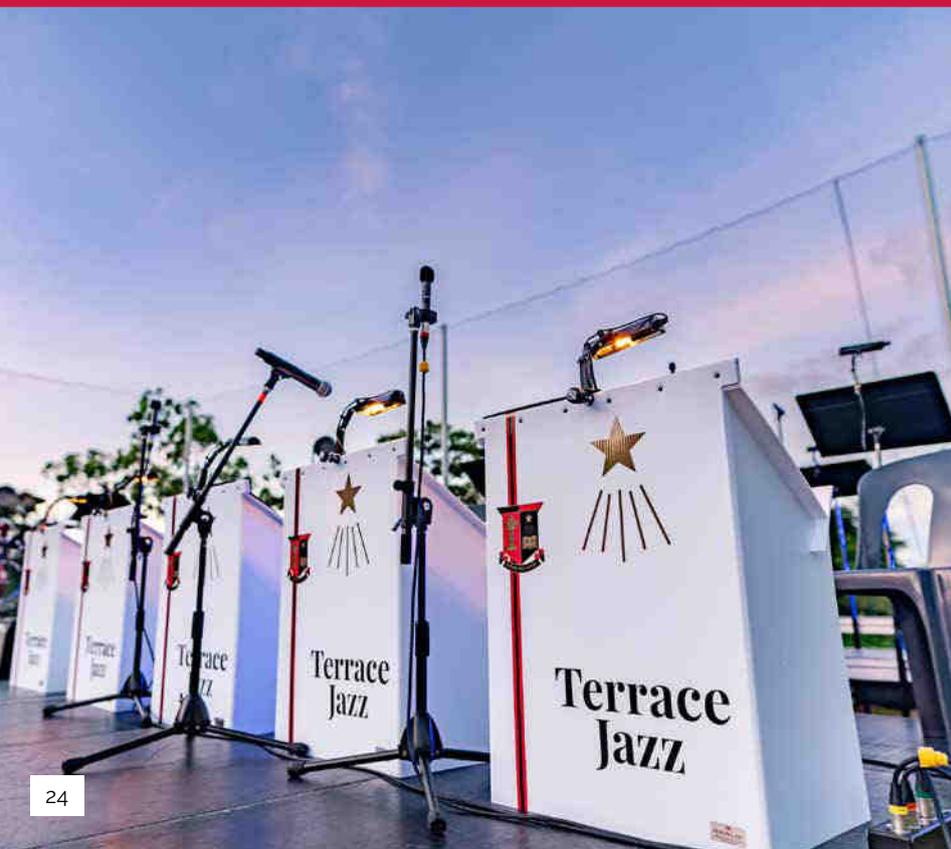

Despite never training or playing together, Jack and his partner achieved a remarkable top 10 finish in the U18 Boys national competition, competing against 35 other teams from across Australia.

JAZZ NIGHT

184 St Paul's Terrace came alive at this year's Jazz Night, held on Thursday 7 March, with the theme *More Class than Brass*. The oval was transformed into a haven of bean bags and burgers as our students lit up the stage, from our beginner ensembles to the Terrace Jazz Orchestra. The highlight of the evening was the headline act, Australian Festival Band *Bullhorn*.

SWIMMING CARNIVAL

This year's Inter-House competition kicked off with the Inter-House Swimming Carnival, held over two days from 1-2 February. This competition is an excellent introduction to the House competition and spirit for our newest Gentlemen of Terrace. Congratulations to the brothers from Buckley House, who were victorious in this year's competition, closely followed by Mahoney House and Treacy House.

HEAD OF THE RIVER

Our rowers delivered an outstanding performance at the GPS Head of the River Championship at Wyaralong Dam on 9 March. Showcasing their dedication, the boys secured an impressive 14 podium finishes across 23 starts. Among the victorious crews were the 10 9s, 10 5s, 11 3s, and Open 3s. Although our First VIII claimed 5th place, we celebrated a notable 2nd place in the Old Boys' Cup.

STAFF SPOTLIGHT

By Miss Annabelle Locke

Empowering Respectful Relationships in Schools

In the realm of education, fostering respectful relationships isn't just a goal; it's a necessity for facilitating safe and supportive learning environments. At the forefront of this mission stands one of our own House Deans, Mr Ben Russell, a dedicated Positive Schools Initiative (PSI) presenter whose passion for promoting respectful relationships exceeds traditional boundaries.

Established in 2008, the PSI is a global organisation that produces thriving school communities. Defined by values of kindness, equity, and courage, at its core lies the vision of nurturing academic, social, and emotional learning honestly, meaningfully, and sustainably.

Mr Russell, a member of the Positive Schools Conferences, embodies this ethos through his efforts in presenting programs such as "Respectful Relationships for Enhanced Student Wellbeing" and "Beyond Outdated School Dances and Workshops." His work highlights the critical role of respectful relationship education in enabling a culture of respect, equality, and non-violence among students, staff, and the wider community.

One of the key challenges in implementing such programs lies in their effective integration across various contexts and settings. This challenge is not unique to any institution, including Terrace. Terrace's approach to respectful relationship education is seen through our morning formation groups, retreats, whole school or House assemblies and collaborations with external providers. This approach ensures students receive a well-rounded understanding of respect and empathy, crucial traits for becoming respectful Terracians. Mr Russell has encouraged a strategic

partnership between our Year 9 and All Hallows' School students, fostering mutual understanding and embracing diverse perspectives. Students are engaging in 'The Better Journey,' a course covering the pressures of the digital age. This is presented through insightful discussions on topics ranging from online pressures to consent and authentic relationships.

Individuals like Mr Russell lead in building thriving school communities, lighting pathways towards a future where kindness and courage come first. Their dedication and passion inspire students and entire communities to embrace respect and empathy.

Welcome to our new staff members in 2024

We acknowledge and welcome all our new staff members who joined us at the beginning of 2024. The College has loved having you as a part of our community and watching your expertise and dedication spread throughout.

THE WOMEN OF TERRACE

By Mrs Anna Wright

In 2025 it will be 150 years since the Christian Brothers opened their first school in Queensland in the Pugin Chapel at St Stephen's Cathedral while the buildings at Spring Hill were being built. Next year will be filled with opportunities to honour and commemorate our history, our foundations and the hard work that has enabled us to become the College that we are today.

The Terrace museum and archives contain vital records of our College – young men in boats, on fields, in musicals, heading off to war, receiving awards – it is a rich history, studded with stories. Attend the Vintage Terracians' morning tea, an Old Boys' reunion, stand on a sideline and hear the stories – tales of triumph, of growth and adversity. These stories are filled with colour and detail, corroborated by classmates, brothers, fathers and grandfathers, or recorded in our archives. But the stories of the women who raised these Terracians and were instrumental in shaping our school are harder to find. Stories of women who stood beside Principals to buy properties to expand the College, women who established traditions still held dear today, women whose ingenuity and ideas raised money that has enabled buildings to be built and furnished.

It has been a symbiotic relationship. Women's participation at the College has benefitted Terrace and in turn Terrace has been a secure home for women during its long history. Terrace has offered opportunities and continues to do so for women to use their skills and be recognised for them, be those skills organisational, culinary, financial, visionary, educational or social. The practical camaraderie that flows from this is responsible for building social networks and fostering the unique atmosphere of care of which we are proud.

The TLG is based on these beginnings. This support group open to all members of the Terrace community remains focused on its four main objectives which are to; raise funds to support the school, support families in need, build social networks and provide hospitality to our community.

To ensure that the 150 year anniversary captures Terrace's history from the entire community the TLG would like to collect more stories of the women in our history particularly those who can give first-hand accounts of involvement in school events.

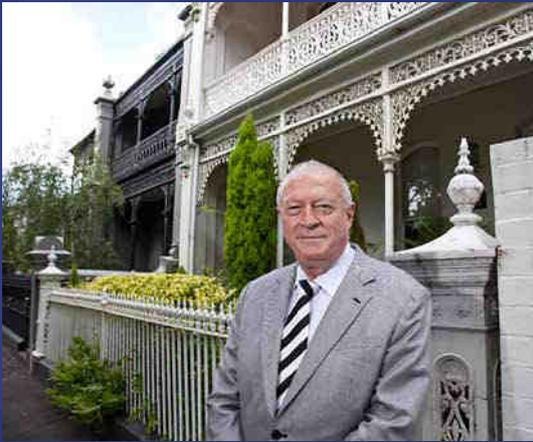

If you or a member of your family has a story, a photo, or a memory of a Terrace woman's place in our history we would be grateful if you could please share it with us. Information can be sent to tlg@terrace.qld.edu.au. Let's get ready to celebrate 150 years together as a family.

AUSTRALIA DAY HONOURS

By Miss Annabelle Locke

The Australia Day Honours List for 2024 has recognised the exceptional contributions of two outstanding individuals whose education journey included time in the Red and Black. Associate Professor Felix Cornelius Behan and Dr Matthew Vincent O'Sullivan have been awarded for their remarkable service to medicine, highlighting the enduring legacy of excellence nurtured by St Joseph's College, Gregory Terrace.

Associate Professor Felix Cornelius Behan (GT 1958), a respected figure in medicine, has been honoured for his significant contributions to medicine, particularly in reconstructive surgery. During his time at Terrace from 1950 to 1958, he exhibited a passion for learning and a commitment to excellence that would define his notable career. His journey from Terrace to the heights of the medical profession reflects a trajectory marked by dedication, innovation, and unwavering compassion for his patients.

Throughout his distinguished career, Associate Professor Behan has left an indelible mark on reconstructive surgery, developing techniques that have transformed the lives of countless individuals. His expertise and surgical skillset have not only restored physical function but have also instilled hope and confidence in those facing traumatic injuries or genetic deformities. His pursuit of excellence has earned him the admiration and respect of colleagues and patients, making him a true inspiration in the medical community.

Dr Matthew Vincent O'Sullivan (GT 1989), has been recognised for his significant contributions to medicine, particularly in the field of Infectious Diseases.

As an Infectious Diseases Physician and Medical Microbiologist, Dr O'Sullivan has dedicated his career to combating some of our most challenging health threats. With a clinical interest spanning staphylococcal infections, tropical medicine, HIV, and infections in immunocompromised hosts, Dr O'Sullivan has been at the forefront of diagnosis, management, and clinical biocontainment for high-consequence infectious diseases such as Ebola and COVID-19.

We congratulate both Associate Professor Behan and Dr O'Sullivan on their successes. Their commitment to advancing the field of medicine and improving patient outcomes inspires current and future generations of healthcare professionals. As proud Old Boys of Terrace, they exemplify the values of integrity, compassion, and service that continue to define the Terrace community.

FROM THE ARCHIVES

HISTORY OF QUARRY & WATER STREET

‘On 18 February 1922, Quarry Hill stood tall along Leichhardt Street. Advertised for sale, the advertisement bragged about its elevated position as “The Highest Point in the City.”’

By Miss Annabelle Locke

Installed in the heart of Spring Hill, Quarry Street and Water Street are pillars of history intertwined into Gregory Terrace's heritage. Spring Hill's journey began amidst the natural springs that earned it the label "Spring Hollow," supplementing Brisbane's early water supply. Over time, as notable residents settled on the ridge, the suburb blossomed into "Spring Hill," shaping its identity for generations to come.

14 March 1953, marked a significant milestone as the Royal Automobile Club of Queensland (RACQ) revealed its Service Depot at the corner of Water Street and Quarry Street. This depot, now known as our Waterford Place Campus, served as a haven for motorists, displaying unique architecture with its curved concrete and brick garage. Petrol bowsers lined the lower level, painting a picture of an era distinguished by the ascent of the automobile.

Quarry Street, too, holds its own slice of history. On 18 February 1922, Quarry Hill stood tall along Leichhardt Street. Advertised for sale, the advertisement bragged about its elevated position as "The Highest Point in the City." This past snippet offers insight into Brisbane's real estate landscape of yesteryear.

Today, Quarry Street is home to the College gym and grass oval. The history of Quarry Street continues with Terrace's recent purchase of the property at 28 Quarry Street. Following successful negotiations, the College will open a new primary school precinct by the middle of 2025.

The six-storey building offers room for offices, classrooms, and recreational spaces, presenting an exciting opportunity for integration with the Waterford campus and adjacent College properties.

Initial plans are underway, with the interior completely gutted during the 2023/2024 Christmas holidays. This investment aims to enrich the learning environment, reduce traffic congestion, and provide modern facilities for Terrace students, both present and future. With revisions to the College's master plan underway, the vision for its various campuses over the next 5-10 years promises a cohesive and vibrant future for the Terrace community.

Vale BROTHER BRIAN GRENIER

Christian Brother Brian Grenier (GT 1951), a man who lived in the transformational power of faith in Jesus Christ, passed peacefully on 7 December 2023 at the age of 89. His 71 years as a Christian Brother were marked by exceptional dedication to education, scholarship, and a life of service.

Brother Grenier's impact was profound. As both educator and theologian, he held positions at all educational levels and lectured at what is now the Australian Catholic University. His passion for spirituality led him to Rome, where he specialised in the Gospel of St John at the Christian Brothers International Renewal Centre.

Brother Grenier's most enduring legacy lies in his written works. A gifted author, his books guided spiritual seekers worldwide, offering profound reflections steeped in compassion and unwavering faith. His literary contributions were not limited to authorship; his insightful book reviews in *The Catholic Leader* became a treasured resource for the spiritually minded.

Born in Brisbane in 1934, Brother Grenier entered the Congregation of Christian Brothers in 1952. His intellectual curiosity was boundless, leading him to complete degrees in Australia, Europe, and the United States, culminating in a Doctor of Ministry. Global travels for ministry expanded his perspective, particularly his time in the Holy Land.

Brother Grenier's life was not just one of words and scholarship. His was a spirit of quiet strength, a beacon of kindness deeply committed to others. May Brother Brian Grenier, a scholar and a servant of God, rest in eternal peace.

FROM THE GTOBA PRESIDENT

It's been an inspiring start to the year for the committee, with a healthy continuing core complimented by a fresh injection of new committee members bringing a genuine desire to contribute to our community. The first few meetings of the year have had full agendas, with a renewed level of enthusiasm in the room and some very worthwhile initiatives being tabled and developed for launch later this year.

It has also been a busy start making arrangements for our flagship events, planning reunions and recognising and celebrating the achievements of our fellow Old Boys in the community, on national and international stages. Our social media platforms have proven to be a great way for us to communicate this news amongst our community - if you haven't already, I'd encourage you to follow GTOBA on X, Instagram or LinkedIn to keep up to date.

We began the year as we always do with our AGM and Annual Mass. We had a terrific group of Old Boys and their families attend this special event. It was particularly nice to be able to welcome families of Old Boys that have recently departed us - that bond that we share extends beyond Old Boys to our families and is part of what is great about our community. It was inspiring again to be joined by Brother Buckley, with a queue quickly forming after mass to say hello and grab a photo with our greatest Old Boy. The Mass was beautifully arranged by Ms Judy McGuire from the College's Identity Team, celebrated by Fr John Gillem (on loan from Nudgee) and wonderfully complimented by the boys from the Terrace Choir.

At the AGM we received support for a motion to update the GTOBA constitution, completing a process begun by Mr Joe Tooma (GTOBA president 2017-2018), with contributions from several committees since. The new constitution is more an evolution than a revolution, with terms and references now up to date with prescribed best practice standards for a not-for-profit association in Australia. Together with advances made in recent years to our

online platforms, our social media presence and other communication capabilities, the revised constitution completes an overarching agenda of recent committees to establish the right framework for the GTOBA to be able to deliver on its primary objective of strengthening the connection amongst Old Boys, and between the Old Boys and the College.

Towards the end of February, we hosted our annual President's Drinks which serves as our inauguration for the graduating class of the previous year to the GTOBA. It was a fantastic night at the Jubilee Hotel which sold out well in advance and saw over 230 Old Boys from the 1960s through to 2023 gather and reunite after months, years or decades. It was a great way to start the year and see so many from the Class of 2023 in attendance.

We have a number of events still to come, including the GTOBA Annual Lunch scheduled for 24 May at the Boatshed Restaurant, Regatta Hotel (tickets already selling fast), and the Brother Buckley Breakfast in late August. Elsewhere in this edition of the Terracian you will see the date claimer for our reunions - I would ask for your help to spread the word with anyone you know in these milestone years.

Our online web platform (gtoba.com.au) continues to be the best place to go to catch up on all things Terrace for our Old Boy community. Thousands of Old Boys have already registered and begun to explore the history and information available. If you haven't done so already, log in and check it out for yourself. If you are a young Old Boy I encourage you to check out our Mentor Connect page - there are

hundreds of Old Boys from many fields that have volunteered to offer career advice to help you find your way and achieve your goals.

It takes a great deal of time and resources to be able to deliver the GTOBA platform, and range of events and reunions, whilst also being able to provide financial support to the Foundation and various other College initiatives each year. To this end, we are very appreciative of the highly professional and dedicated Development Team at the College for the operational support they provide. We would also like to recognise the vital ongoing financial support we receive from partners of the GTOBA, such as James Stewart (GT 2000) with his businesses Bill Chaser and Yabbr. If you would like to support the GTOBA via any of our events or platforms, we have sponsorship packages available that we would be very pleased to discuss.

We are looking forward to bringing you another great year from the GTOBA. Look out for our communications by email and on social media, and I look forward to the opportunity to meet with you at our events.

Mark Christensen (GT 1994)

2024 GTOBA ANNUAL MASS AND AGM

Keeping with tradition, the GTOBA year was opened with the Mass in the Chapel of the Holy Family celebrated by Fr John Gillem. Greats, Br Barry Buckley AM (GT 1953) and James 'Jim' Crowley (GT 1952) were also in attendance, making a special effort to always be a part of this important service. Following morning tea in College Hall, the GTOBA got down to business at the AGM where office bearers for the year ahead were elected. Here's to another great year for our Old Boys, building on their connection with the mighty Red and Black.

SPOTLIGHT ON DECLAN LANE

By Miss Doreen Awabdy

Why do you stay connected with Terrace?

The Terrace community is very strong and everyone who has been a part of it is very welcoming and fondly remembers their time there. Connecting with this community once you have left is both nostalgic and helpful. Knowing others and being known is very powerful too, particularly as the Terrace community is very well-connected and established in their own right.

Which members of your family have attended/ will attend Terrace (past, present, and future)?

Apart from me, only one cousin, Harry Lane (GT 2022) have attended Terrace. I've just had my first child, Patrick, who I hope will be a Senior in 2041.

What drives your engagement and support of the GTOBA?

I have three key motivations for actively being involved in the GTOBA: (1) Connections with those within the GTOBA. I've made a number of great friends due to my engagement with the GTOBA; (2) I want to be able to assist younger Old Boys to get a leg up in their career wherever possible; (3) the GTOBA network is very vast and in my professional life, everything is about connections and people knowing that you'd be able to assist.

Summarise your career path in five points?

- ⦿ Assistant teacher of English in Madrid, Spain (2014-15)
- ⦿ Commenced as Insolvency accountant at Worrells (2015)
- ⦿ Corporate Finance Consultant at HMW Group (2020)

- ⦿ Commenced as QLD State Manager at Cathro & Partners (Dec 2020)

- ⦿ Obtained Liquidator and Trustee in Bankruptcy registrations in May 2023

Tell me about your role at Cathro & Partners?

My role at Cathro & Partners is Director and Head of our Queensland Division. I am a liquidator and bankruptcy trustee leading a team of five, split between Brisbane and Sydney and a further three contractors in India and Bali, working on both corporate and personal insolvency and restructuring.

How would you summarise to your peers the work that Cathro & Partners undertakes? How could this benefit them?

Everyone in the corporate world or simply running a business can benefit from our services providing corporate and personal restructuring and insolvency services. We assist companies and people when they are struggling financially to enable them to start afresh or become more viable businesses. Insolvency is often thought about poorly, however, I like to think about it positively whereby we alleviate the financial stress when it becomes too much or put plans into place to help.

Tell me something about you that someone may not know?

I spent a year working and refereeing rugby in Spain and I now speak Spanish almost fluently.

RECOGNISING OUR DONORS

A MESSAGE FROM THE PRINCIPAL

Gregory Terrace
FOUNDATION

Our College was founded through the generosity and kindness of the community. From Blessed Edmund Rice, to the Christian Brothers, and the families that gathered around them to build on an important Christian mission, their acts of philanthropy provide the College that we all enjoy today.

In 2023, you all forged your place in this legacy. Your gifts to the College amounting to over \$1.7 million dollars, have enabled Terrace to press forward with critical projects and programs that otherwise cannot be funded from school fees alone.

Possibly one of the closest links we have to our founding school is the Edmund Rice Bursary. Thanks to your contributions to the Bursary Fund, we have been able to provide educational opportunities to 23 young men, enabling them to pursue their dreams and fulfil their potential.

Our built environment at Terrace represents more than buildings. They are the facilities that provide a holistic student experience allowing each student to be the best that they can be both academically and socially. For this reason, our College will always prioritise opportunities to develop our campus for our young men. Your support of the Building Fund has been instrumental in laying the foundation for our ambitious development plans, including the repurposing of 28 Quarry Street into a bustling Primary Precinct. In addition to providing a state-of-the-art learning facility for our growing primary school, it will unlock critical capacity on our main campus for all remaining year levels.

These developments will also ensure that Terrace remains at the forefront of educational institutions for years to come.

As we approach our 150th anniversary, we do so with confidence and strength in renewal, knowing that we have partners like you by our side. Your commitment to our Edmund Rice tradition and your belief in our mission are truly inspiring.

We are deeply grateful for your continued support.

Dr Michael Carroll
College Principal

YOUR MAZDA

THE DAY.

Autumn

THE ROOM

Friday 19 April 2024

THE SITE

Friday 19 – Sunday 21 April 2024

The Day Autumn is one of Place's big four headline Auction events held throughout the year.

The Day combines The Site (on-site Auctions) with The Room, a unique in-rooms Auction experience held at our world-class Place HQ purpose designed Auction rooms.

The Day presents the perfect opportunity for motivated buyers to secure their dream property.
